

South Dakota Early Childhood Enrichment Orientation to Child Care

In an effort to assist you in meeting your orientation training requirements, we have created a list of Early Childhood Connections trainings that meet the various training area requirements. You can use previous trainings as far back as January 1st, 2015. All future ECC classes that meet an orientation training area will have the training area listed in the class description. Please let us know if you have any questions regarding ECC or SDECE Orientation trainings.

Prevention and Control of Infectious Diseases:

Communicable Disease Jeopardy (Offered 11/03/15)	This class will cover many aspects related to communicable diseases as well as the facts about flu shots. Pathways: #5: Identification and Prevention of Communicable Diseases.
Immunizations (Offered 08/03/15)	This class will discuss why immunizations are important for the health of the children and the health of the employees. The various diseases that are prevented by vaccines will be discussed. How to determine if a child's immunization record shows that the child meets the state regulations for immunizations will be covered as well. Pathways: #5: Identification and Prevention of Communicable Diseases
Infectious Diseases (Offered 02/15/16)	Participants will look at many different infectious diseases, how to prevent the spread of diseases. Pathways #5: Identification and Prevention of Communicable Diseases
Respiratory Illnesses (Offered 02/01/16 & 10/05/15)	Participants will look at different respiratory illnesses they may encounter. Pathways: #5: Identification and Prevention of Communicable Diseases
Respiratory Illnesses/Infection Control (Offered 02/02/15)	Participants will look at different respiratory illnesses and other types of infections they may encounter. Pathways: #5: Identification and Prevention of Communicable Diseases
Itchy Red Bumps (Offered 12/07/15)	Is it Chicken Pox or Hand, Foot and Mouth Disease? This training reviews safety standards for early childhood programs. Learn about common childhood illnesses, communicable illnesses, identification and prevention. Pathways: #5: Identification and Prevention of Communicable Diseases
